e-TRANS-200
TRANSCEIVER

Introducing a bidirectional wireless access control system for gate and door applications.

With a unique lock out function, this high end accessory is designed to manage access control for commercial multi-unit complexes with up to 200 units, with functions also suitable for home systems.

Features

- Simple to use menu functions with LCD display
- High sensitivity 433 MHz -126 dBm receiver with 20 dBm Transmission output
- External SMA connector to allow for the connection of different antennas
- Wide input voltage range from 10V to 36V ACDC
- 2 relay outputs with ability to set to Pulse, Hold or Latch mode
- Selectable ultra-low standby power consumption of only 4.5 m/a making it ideal for solar applications
- 200 code storage with remote ID selection making it ideal for unit applications
- Ability to delete individual remotes devices
- Unique lock out feature allowing you to lock out entry buttons, e-Loops and keypads using the lock and unlock function on the e-Remote
- Ability to connect to the e-Loop to access menus and change settings
- Test mode which allows you to test relay outputs, radio signal strength and radio interference
